

## **Gordon S. Myers**

### **Executive Director, North Carolina Wildlife Resources Commission**

Gordon Myers has served as the Executive Director of the North Carolina Wildlife Resources Commission (NCWRC) since 2008. The NCWRC and its 650 employees are responsible for the management and conservation of North Carolina's wildlife resources and habitats, management of two million acres of game lands, design and maintenance of boating and fishing access areas, and enforcement of the State's wildlife management, inland fishing and water safety laws. Prior to his appointment as Executive Director, Mr. Myers spent 17 years in Engineering with the Wildlife Resources Commission, where he was involved with design and construction of boating access facilities, fishing piers, and other agency infrastructure. He also oversaw development of the agency headquarters, which is the first sustainably designed state government office building in North Carolina and which has been recognized with a LEED certification.

Recently Mr. Myers has led the implementation of agency strategies for legislative relations and financial sustainability; and development of organizational effectiveness through review and realignment to match the agency's Strategic Plan.

Mr. Myers serves as Chair of the North American Bird Conservation Initiative Committee, which includes federal and state wildlife agencies and scientific and conservation organizations working together for integrated bird conservation across North America.

Mr. Myers is a 1990 graduate of North Carolina State University with a Bachelor of Science degree in Civil Engineering. He has a son and a daughter and lives in Raleigh, North Carolina.
